Powdered Clay Mask

GHASSOUL CLAY

Moroccan Ghassoul clay is the secret to beautiful and clear skin. It removes impurities and absorbs excess sebum to leave your skin feeling wonderfully clean and fresh. Moroccan lava clay smoothes your skin by gently exfoliating dead cells. It is extremely rich in minerals so it nourishes your skin to make it look its best.

It contains:
100% Moroccan Lava Clay

WHITE CLAY / KAOLIN

White clay works wonders to the skin. If your skin is sensitive and prone to allergies or irritation, white clay is the right choice for you. It is the most delicate clay type. It soothes irritated skin and helps to brighten up dull skin.

It contains:
100% Kaolin

RED CLAY

Does your face often get as red as a cherry? Do you struggle to cover the thread veins on your face? Do you suffer from rosacea? Red clay is the answer to your prayers. It improves skin microcirculation and seals capillary walls to reduce the redness of your skin and the appearance of thread veins and to prevent new ones from appearing.

It contains:
100% Red Clay

GREEN CLAY

Are you struggling to get clear skin? Green clay has the most impressive skin cleansing action among all cosmetic clays. It removes excess sebum and clears your skin of any impurities or toxins. The clay also gently exfoliates dead cells to leave your skin perfectly clear. It also nourishes and revitalizes the skin.

It contains:
100% Montmorillonite

BLACK CLAY

Bentonite clay with activated carbon is a natural mineral in a form of dark green or black powder with strong detox properties similar to those of green clay. Thanks to its extra sorbent properties, black clay helps to control sebaceous glands' function and visibly shrinks pores. It is recommended to those with greasy skin, blemishes and large pores.

It contains:
100% Bentonite (Carbon Black)

Activator for powdered clay & algae mask

ACTIVATOR FOR CLAY AND ALGAE MASK POWDER
